

# Health & Safety Policy Statement

## Abseiling Property Maintenance Ltd

The company's policy is to provide a safe and healthy place and environment to work in; to encourage safe working practices and awareness of safety amongst all employees.

The company is responsible for providing the means to enable every employee to work safely in a healthy environment with suitable welfare facilities – including but not limited to – the requirements laid down by law. To provide consultation between Management and Staff via an elected representative.

The company is responsible for ensuring that, in the operation and maintenance of equipment and facilities, every thing reasonably practicable is done to prevent accident and injuries.

It is the duty of every employee whilst at work, to exercise personal responsibility and to do every thing possible to prevent injury to him/herself and to others. Also to co-operate with management, or any other authorized person, to enable them to comply with any duty or responsibility imposed on them, by or under any relevant statutory provisions.

**The following persons have responsibility for implementation of Health and Safety policies with the company:**

**Board Members:**
